

# Getting Started: How do I get Shell access to the server?

We provide ssh access to the grid system and the hostname that you connect to:  
shell.modwest.com

If you don't an SSH client program installed on your own computer, you can choose [one of these](#).

If you don't know what to do at a unix shell, see this quick reference or, for in-depth information for our default shell, bash, see the [Bash Reference Manual](#).

Unique solution ID: #116
